Variable Speed Limit Signs

Designed and manufactured by OPTRAFFIC, the Variable Speed Limit Sign (VLS) is a fully solar powered device that can display any range of numeral speed, text message, graphics and animations in white.

OPTRAFFIC VLS is an ideal tool for local speed control of traffic management, council & constructional engineering place, mining area, and also to analyze the traffic condition by logging the vehicle speed.

OPTRAFFIC®

THE INDUSTRY LEADING MANUFACTURER

OPTRAFFIC VSLS is designed in our ISO9001 facility with innovative technology. The unique hardware and software features of our VSLS allow you to program all your devices via wireless control.

You can find all the devices location, design and create any message with graphic symbols, text or graphics combined, make multiple message screens, flashing animations on our full matrix speed signs, and/or just detect the vehicle speed with radar installed.
